is concentrating its efforts to win the War. It has gone about raising reinforcements in the only practical way; under the Military Service Act, 1917.

Laurier, Bourassa and their adherents admit their intention of holding up reinforcements so urgently needed in the trenches.

Labor Notes

Items of special interest to men in World of Labor.

The Chicago Tribune says that American labor is receiving more recognition today than ever in its history, and is being recognized not because it holds a club over industry but because the leaders are showing themselves loyal to the common cause. We believe there is going to be throughout the country a broader and better feeling toward organized labor, a more intelligent comprehension of its aims and a more hearty co-operation of employers and public in the betterment of conditions of wage-earners. This is a part of our progressive democratization.

During the past nine months there have been 10,000 accidents reported to the B.C. Compensation Board, an average of one for every five working men affected.

A good record has been established by the Regina Bricklayers' Union in the number of members of the Union who have enlisted for active service overseas. The honor roll of the Union was recently unveiled, containing the names of thirty members.

The Winnipeg labor party, part of which is against the war, judged by all official pronouncements through its trades council and city council representatives, sustained a reverse in the Winnipeg civic elections.

Trades and labor councils in a number of cities are taking steps to organize local branches of the Women's Labor League, which it is expected will eventually become a Dominion wide organization. The idea back of the organization is an eight hour day and a minimum wage for women.

Teamsters at Vancouver have been able to arrange fairly satisfactory conditions following the recent strike. The settlement was in the nature of a compromise, with the men gaining practically all they asked, with the exception of the term of the agreement, which was compromised. The employers agreed to pay the scale of wages demanded, and agreed to a closed shop in the city, even the mail drivers being included. The men's representatives agreed on a nine and a half hour day instead of the nine hours demanded, and the agreement will last for ten months, or until September, 1918.

The arbitration board appointed to investigate matters of dispute between the city of Edmonton and the fire department employees is now in progress. Some progress toward a satisfactory settlement has already been made.

Nothing further has been heard of the strike vote recently taken among Edmonton street railway employees. It is understood that the count will not be made until the international officer arrives.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATION.

The sole head of a family, or any male over 18 years old, may homestead an area of 160 acres of land in the Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence and cultivation of the land each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required, except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price, \$3 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price, \$3 per acre. Minimum residence six months; each of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

SUPPORT UNION GOVERNMENT

Liberals and Conservatives are United
The People Must Unite to

Win the War

A Laurier-Bourassa Victory means deserting our boys in the trenches for over a year, throwing up our hands and quitting! Don't shout "Kamerad" under the Referendum proposal. Come out and fight for Union Government.

Make No Mistake

IF LAURIER WINS:

(1) Canada will send no more reinforcements to the front, which practically means quitting the war and placing the country in the same class as Russia.

(2) The French-Canadians who have shirked their duty in this war will be the dominating force in the Government of the country.

ARE THE ENGLISH-SPEAKING PEOPLE PREPARED
TO STAND FOR THAT?

It is because the French-Canadians have not done their duty that Conscription had to be resorted to.

The French-Canadians have made it perfectly clear that they do not like the war and are against Canada participating in it further. Some of them even go to the length of saying that the soldiers should be brought back from the front.

The Nationalists are demanding that the men who have been enrolled under the Military Service Act be disbanded and sent back to their homes. To secure the Nationalist support Laurier-Liberal candidates in Quebec have signed the following pledge:

"I, the undersigned, candidate in the Federal Elections, undertake by these presents, if I am elected, to demand the immediate suspension of the Military Service Act, 1917, and of all its effects until Canadian electors have pronounced by way of plebiscite; and also that the electors condemn it, that it be considered as null from its origin and that in consequence all conscripts be disbanded."

"I also undertake to vote against any Government which should refuse to adopt the above enunciated policy."

**After the War****Land Settlement and Agriculture Will Be Stimulated**

In the post-bellum period Canada will need as much real production as it can get. Farmers ought to have a big stimulus. There are only two ways of bringing up our output—to bring in trained farmers, or to educate green settlers. The release of our large army and immigration of British ex-soldiers makes us the raw material which ought to be turned to agricultural account. To provide training facilities on inviting conditions would attract thousands of men who otherwise would drift about, settling in the cities and towns when and how they could. The great obstacle to land settlement is ignorance of farm conditions, for which no trade or trade—not a refuge for the failures of other occupations. By all means, the opening of the door to settlement, through training and settling facilities, ought to be as wide as possible for returning and immigrating soldiers.

An Impudent Offer

Nominal independence, a powerless king sitting handcuffed and gagged on his throne! German commercial control, Germany's possession of the railroads and the ports—a German army dominating the country and garrisoning its towns and fort. This is what German means when she says as open as the day of restoring Belgium. Chancellor Michaelis has the impudence to talk as if he had spoken of it already, to talk as if he had done something to bring English and French to consider so hasty some offer, and to pretend that nothing stands in the way of negotiation—Belgium being thus disposed of—except Alsace-Lorraine.—New York Times.

Miller's Worm Powders will drive worms from the system without injury to the body. The powders delicate stomach can assimilate them and welcome them as speedy easers of pain, because they promptly kill the worms and cure the disease. The suffering of the child is relieved. With so sterling a remedy at hand no child should suffer an hour from worms.

China's Definition

To us the real interest in unearthing the kaiser's speech is historical. History has the laugh on Wilhelm, for the very Chinamen who were expected never to do so well as any German have already looked at 70,000,000. They did not wait a thousand years. Frightfulness has not prevented their entrance into the world. In China, where things are generally upside down and wrong end to, they cherish the definition. "Frightfulness": That which does not frighten! And we may add that the definition has met with singular reception the world over.—Chicago Tribune.

"A bird in the hand is worth two in the bush." "Trouble is to make the bird believe it."—Louisville Courier Journal.

Interest in Sheep Raising

4,000 Applications for Sheep From Manitoba Farms

The announcement recently made by the minister of agriculture for the province of Manitoba that his department would expend \$125,000 on the purchase of sheep in Ontario to be sent to Manitoba farmers at cost, has already resulted in 4,000 applications being received. The department of agriculture has now announced that the amount will not limit the purchase to \$125,000, but the fact that in view of the number of applications received it will be impossible to procure sufficient sheep to supply the demand. The high price which has been obtained from wool together with the low cost at which sheep can be reared in Western Canada, is inducing a considerable number of farmers to take up sheep raising, while those who have already made a beginning in this line are making every effort to increase the size of their herds.

The Terror of the Hun

When Death Is to Be Preferred to Slavery.

A patient scene was witnessed a few days ago in a home one day when a mother bade farewell to her son, as he departed for a training camp. The poor woman was almost overcome with emotion. Her only boy was turning his back upon the door, and she said: "Good-bye, son, go to the many fellow who stood before her. You will never come back," she sighed—"Oh, my boy; you will never come back to me if you go to France!"

The young fellow took his mother in his arms. He assured her that the chances were he would return. She said, "When mother is gone, if die fighting in France, shall he letter off you that you will be in this country if Germany wins this war?"

Mother and fathers should read the words of this brave boy. They should have them impressed upon their minds. For not since the war started has any man uttered greater blasphemy than death soldiers in Germany will be held in higher esteem than the living people of this country if Germany wins! They will at least be beyond the reach of a Prussian military officer; they can longer be kicked off the streets; they will not have to stand with folded arms and witness a brute of an officer outrage a sister or strike a mother over the head with a rifle. They will see a brother stuck through with a bayonet. All these things have been witnessed by the sons of the countries where the Germans rule. Ay, but there is more than that than to be the slaves of the foulest military hierarchy that has ever cursed the earth! The writer of this has an only boy in the war. He had rather stand in the field of battle than to see a German army officer enter his home.—Columbus Dispatch.

Money in Sheep
Alberta Sheep are Importing Corridale Rams

Sheep of all kinds thrive well in Western Canada. It is therefore, not surprising to hear farmers and ranchers who have had success with a particular breed, claim that the breed which has served them so well to be the best and most suitable for conditions in this country. The fact that so many farmers in Western Canada have pinned their faith in the many different breeds, however, serves to prove the truth of the statement in the first sentence.

One of the largest sheep operators in Southern Alberta is M. J. T. Henninger, of Wellmire, Alberta, who has nearly 12,000 sheep on the range at the present time. This year he sent some 21,000 pounds of wool to Toronto for sale, realizing a price, in which he is well satisfied and which yielded him a good return. In his opinion, the Corridale breed of sheep will be prominent in future breeding operations on the southern ranges. He has just purchased ten rams of this breed from the King establishment in Wyoming.

American Donation to Canadian Red Cross

One of Uncle Sam's Soldiers Shows a Splendid Spirit

It sometimes said that there is no sentiment in business, but it is time that, in these days particularly, sentiment plays a very large part in business. And when sentiment tends to all manner of closer together, it is, perhaps, the very best kind of business.

An experience with this kind of sentiment came to the notice of the general and department manager of the Canadian Pacific railway at Calgary a short time ago. Mr. W. G. Fraser, of the aerial training station at San Francisco, had a balance of fifty dollars coming to him on a land transaction with the company. Mr. Fraser is now lined up with Uncle Sam's fighting forces; he desired that the money should go to some patriotic purpose, so he wrote to the C.P.R. asking them to turn it over to the Canadian Red Cross. He might, of course, have had it paid direct to him or to some American patriotic society, but after a little thought he decided to give it to the Canadian Red Cross, which a few days ago received a check for

the sum of \$100.

250 Seems a very large number of cups to get from a pound of tea. But that proves the fine quality of Red Rose Tea, which goes further and tastes better because it consists chiefly of rich, strong teas grown in the famous district of Assam in Northern India.

A pound of Red Rose gives 250 cups.

The Obsession of Pacifists

The Absurd Fallacy That Underlies Their Arguments

No pacifist of any kind can ever talk or write about the war much more than a single sentence without revealing that he or she is possessed and obsessed by the strange belief that the war is wrong, while all who take part in it are on the same moral level and open to the same condemnation. This is the absurd fallacy which underlies all pacifism and which every argument offered by the followers of that miserable cult. As logic the leap thus made from premise to conclusion is with one slighting warning, that every pacifist is under some mysterious and inexorable compulsion to make it every time he discusses either war in general or his own particular cause, and always the result is the same: critics are either angered or disgusted—or both.—From the New York Times.

Why

A Boston woman applied for a pension the other day.

"And pray, madam," asked the pension examiner, "why do you think yourself entitled to a pension?"

"My husband and I fought all through the war," was the reply.

Reduce House Temperatures

Suggestion as a Measure of Economy in the Use of Coal

The fuel administrator suggests that Americans reduce the use of coal Americans to reduce the temperature of their houses at least five degrees this winter. The American standard of artificial heating is commonly said to be 70 degrees Fahrenheit, or 21 degrees Celsius. The English standard is 62 degrees. The complaints of Englishmen in America of overheat houses and jests of Americans in England at the warmth indoors are well worn stories. Climatic differences make identical heating standards unlikely and even undesirable. Yet American houses are frequently kept hot and not with a temperature of 70 degrees but 72 to 75 degrees. When Mr. Garfield urges a general reduction of five degrees in the temperature of the average home he asks us to consider how far he even deserves.

Most medical authorities would enthusiastically endorse his suggestion on grounds of health alone.—New York Sun.

A Scarlet Rider

Lieutenant-Colonel G. E. Sanders, D.S.O., of the 2nd Canadian Pioneer Battalion, holds a somewhat remarkable record in Canada during the war. He is said to be the first Canadian officer who has ever been known to suggest that his command should be taken by a young man. The record of the unit which has been done by the 2nd Pioneer Battalion, the Canadian authorities have been rather hard to persuade on this point, but Colonel Sanders, who originated the suggestion, still believes that it may still be useful in other directions, pioneering is a young man's job. Colonel Sanders, who fought through the Boer War with distinction, before that was in command of the North-West Mounted Police at Calgary. Indeed, he returned to that command of famous "Mounties" after the war.

Gives Credit to Advertising

Big Firm Knows the Value of News-paper Advertising

Scott & Bowne, manufacturing chemists, of Bloomfield, N.J., proprietors of the world famous medicine Scott's Emulsion, is one of the largest advertising agents in America, so their opinion of the value of newspaper advertising is worthy of attention. In a letter of instructions recently sent them by advertising success—H. W. Blatz, who is revealing remarkable skill and originality in his methods of treatment and is achieving striking success—

Great Work

The work of rebuilding the wrecked bodies of returned soldiers, restoring vitality to their shattered nerves, muscles and limbs, and anew the use of their limbs, is a work which deserves all the encouragement which it can receive.

Such work is being carried on at the Hospital in Toronto under the supervision of a young Hamilton specialist, Dr. W. E. Blatz, who is revealing remarkable skill and originality in his methods of treatment and is achieving striking success—

Don't Submit to Asthma. If you suffer from the hope of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kellogg's Asthma Remedy. A trial will drive away all doubt as to its efficiency. The results are beyond compare, and will convince you more than anything that can be written. When help is in so sure, why suffer? This matchless remedy is sold by dealers everywhere.

Every ailing woman in Canada is cordially invited to try the Lydia E. Pinkham's Vegetable Compound. It is the most complete and unique tea-treatment on file at the Pinkham Laboratory, many of which are from time to time published in the *Lydia E. Pinkham's Vegetable Compound*, a monthly magazine.

The Lydia E. Pinkham's Vegetable Compound, I took six bottles and today I am a healthy woman able to do my own housework. I thank you.

Woman—Would try Lydia E. Pinkham's Vegetable Compound, and find out for themselves how good it is!—Mrs. CARL A. KNUDSEN, 608 North Avenue, Chicago.

The Lydia E. Pinkham's Vegetable Compound, I suffered from a female trouble, with severe pains in my back and sides until I became so weak that I could not walk from chair to chair, and got so nervous I would jump at the slightest noise. I was afraid to go to the doctor, and asked me to do my housework. I was giving up hope of ever being well again, when my doctor advised me to take Lydia E. Pinkham's Vegetable Compound, and found out for themselves how good it is!—Mrs. CARL A. KNUDSEN, 608 North Avenue, Chicago.

Pinkham's Vegetable Compound, I suffered from a female trouble, with severe pains in my back and sides until I became so weak that I could not walk from chair to chair, and got so nervous I would jump at the slightest noise. I was afraid to go to the doctor, and asked me to do my housework. I was giving up hope of ever being well again, when my doctor advised me to take Lydia E. Pinkham's Vegetable Compound, and found out for themselves how good it is!—Mrs. CARL A. KNUDSEN, 608 North Avenue, Chicago.
